Please refer to the website, <http://www.dec.state.ga.us/CCS/Regulations.aspx>, for information regarding October 1, 2018 rule changes about Criminal Records Checks that may affect your facility. In summary,

- New records checks will be required to be completed if a staff member experiences a six month break in service from the child care industry
- New clearance is required at least once every five years
- Any staff member solely responsible for supervising children will be required to have completed a comprehensive background clearance
- All staff members are required to have completed at least a national fingerprint based clearance check
- Any staff member with only the national fingerprint based clearance, must be under constant and direct supervision of a staff member with a satisfactory comprehensive records check clearance
- Facilities are required to use DECAL KOALA for Criminal Records Checks, including to verify portability of an employee

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. 290-2-3-.13(2)(c) requires that climbing and swinging equipment that are not portable have a resilient surface beneath the equipment and the fall zone from such equipment, which is adequately maintained by the Home to assure continuing resiliency. It was determined based on observation and the provider measuring the swing and fall zone with measuring tape to verify that the three swings on the large play structure did not have an adequate fall zone at the back of the swing area when the swings were five feet from the fencing and required a fall zone of 12 feet.

POI (Plan of Improvement)

The Home will ensure that there is an adequate resilient surface under and in the fall zone of climbing and swinging equipment. The Home will inspect equipment and resilient surfacing material regularly and repair or replenish as needed. Currently, the provider wrapped the three swing chains around the top of the structure until the swings can be removed permanently.
