Finding

591-1-1-.26(4) requires that playgrounds be protected from traffic or other hazards by a (4) four foot high fence or other barrier approved by this Department. Fencing material shall not present a hazard to children and shall be maintained so as to prevent children from leaving the playground area by any means other than through an approved access route. Fence gates shall be kept closed except when persons are entering or exiting the area. It was determined based on observation an opening at the front left side of the Infant /Toddler playground measuring at 4 inches at the bottom of the fence on this date.

POI (Plan of Improvement)

The Center will routinely check the fence to determine if it is in good repair and remains at least 4 feet high, and will repair any hazards. The Center will train Staff to identify and report any fence hazards and to keep the fence gates closed when not in use.

Correction Deadline: 4/24/2026

Finding

591-1-1-.26(8) requires climbing and swinging equipment to have a resilient surface beneath the equipment and the fall zone from such equipment must be adequately maintained by the Center to assure continuing resiliency. It was determined based on observations that the resilient surface beneath the climbing equipment and blue swings did not have adequate amount of resilient surfacing in the fall zone as required on this date.

POI (Plan of Improvement)

The Center will add additional resilient surfacing to the fall zones where needed and check daily, adding resilient surfacing as needed to maintain adequate resiliency.

Correction Deadline: 4/3/2026

Finding

591-1-1-.26(9) requires the playground to be kept clean, free from litter and free of hazards, such as but not limited to rocks, exposed tree roots and exposed sharp edges of concrete. It was determined based on observations that the main playground was observed with the following hazards.

- * Scooter with broken handles
- * bicycles with broken/missing handle bar grips
- * chipping paint on the blue and yellow seesaw, three ring basketball goal and the tricycle merry-go-round with exposed rusting
- * broken PVC pipes used as a border on the playground with swings/climbing equipment
- * dirt residue on toys and equipment
- * leaves, trash, liter and debri observed

POI (Plan of Improvement)

The Center will remove any litter and fix or remove hazards from the playground and will routinely monitor the playground and remove litter and hazards.
