Advisement of Potential for Repeated Rule Violations during Pending Investigations

This report shall serve as official notice of potential rule violations. These potential rule violations have been detailed in this report and discussed with you by the consultant. The department shall conduct a thorough investigation to determine if in fact the alleged rule violation(s) should or should not be substantiated. Please be aware that the investigation may take some time to be finalized to ensure fairness and accuracy. During this investigation period, any violations of an identical rule or rules will require the department to treat any and all substantiated rule violations identified in the investigation as repeated rule violation(s).

Further, from time to time the department discovers additional rule violations during the course of an investigation. If there are new rule violation(s), your consultant shall inform you of the violation(s) as soon as possible. However, as stated above, any violations of identical rule(s) will require the department to treat any and all additional rule violations identified in the investigation as repeated rule violations.

All rule violations found in relation to a complaint or incident investigation will be associated with the date the investigation was closed.

Bright from the Start recommends that all licensed child care providers carry liability insurance coverage sufficient to protect its clients. If you do not have this liability insurance, you are required to post a notice with ½ inch letters in a conspicuous location in the program, notify the parent or guardian of each child in care in writing, obtain their signature to acknowledge receipt and maintain this written acknowledgment on file at the program at all times while the child attends the program and for 12 months after the child's last date of attendance. (O.C.G.A. Section 20-1A-4)

I have read and understand the Rules and Regulations for Child Care Learning Centers, 591-1-1. I acknowledge that the items noted in this report have been discussed with me and I have agreed to a Plan of Improvement (POI) as indicated in this report. I understand that correction of these deficiencies, while required, will not necessarily prevent DECAL from taking adverse action against this facility. I understand that if I disagree with any of the deficiencies cited, I have the right to refute them on this report or any other form that I choose to send to Child Care Services.

The following information is associated with a Complaint Closure:

Food Service

591-1-1-.15 Food Service & Nutrition

Finding Associated with Complaint

591-1-1-.15(3) requires baby bottles and formula to be labeled with the individual child's name; supplied by the Parent daily in bottles; and refrigerated at a temperature of forty (40) degrees Fahrenheit or less. Only the current day's formula or breast milk shall be served. If formula must be provided by the Center, only commercially prepared, ready-to-feed formula shall be used. Refrigerated or frozen breast milk shall only be heated or thawed under warm running water or in a container of warm water. It was determined based on investigative findings that the allegation that Center Staff did not ensure that all infant bottles were clearly labeled, which led to a 7-month-old infant consuming another infant's breast milk, resulting in the child having diarrhea was substantiated. Staff statements and interviews revealed that on February 16, 2026, staff member A, placed an unlabeled bottle of breast milk into the diaper bag of another child upon pick up. Staff statements and interviews revealed that child A was picked from the school by a family member and upon their arrival at home, the child was fed the bottle that had been placed in the diaper bag by mistake.

POI (Plan of Improvement)

The Center will train Staff to follow the required procedures, ensure that parents are fully informed, and will review and monitor regularly.

Correction Deadline: 4/9/2026
